Experience

Junior IT specialist, Application and Integration and Master Data

DSV - Global Transport and Logistics · Full-time

Aug 2022 - Present · 2 yrs 9 mos

Warsaw, Mazowieckie, Poland

Full-time parenting

Career Break

May 2020 - Aug 2022 · 2 yrs 4 mos

Warsaw, Mazowieckie

Data Analyst

PERPAX TRAVEL · Full-time

Nov 2019 - May 2020 · 7 mos

Turkey

As a Data Scientist at Perpax, I harnessed data analytics and machine learning to transform travel experiences and business outcomes. I designed predictive models to identify emerging travel trends, developed tailored recommendation systems to enhance itinerary planning, and optimized pricing models to boost revenue. By mining customer behavior data and market trends, I uncovered insights that refined marketing strategies and operational workflows. Collaborating with diverse teams, I spearheaded data-driven projects that elevated customer loyalty and propelled business success.

Skills: Machine Learning

Data Scientist

aradparvazaram.com · Full-time

Mar 2017 - Aug 2019 · 2 yrs 6 mos

Alborz Province, Iran

As a Data Scientist at Arad Parvaz, I leveraged advanced analytics and machine learning to optimize travel solutions and enhance customer experiences. I developed predictive models to forecast travel trends, personalized recommendation systems for tailored itineraries, and pricing optimization algorithms to maximize revenue. By analyzing large datasets from booking patterns and customer feedback, I provided actionable insights that improved operational efficiency and drove strategic decision-making. Collaborating with cross-functional teams, I implemented data-driven strategies that boosted customer satisfaction and business growth.

Skills: Python (Programming Language) · Artificial Neural Networks · Financial Analysis · Business Analysis · Machine Learning

Frontend Developer

mihmansho | سرویس گردشگری آنلاین · Full-time

Nov 2016 - Mar 2017 · 5 mos

As a Web Developer at Mihmansho, I design and build dynamic, responsive web applications using JavaScript and modern frameworks. I collaborate with cross-functional teams to translate business requirements into scalable, high-performance solutions, ensuring seamless user experiences and maintaining code quality across projects.

Skills: JavaScript

Volunteer

Animal Suppprt NGO

Jul 2014 - Jan 2017 · 2 yrs 7 mos

Alborz Province, Iran

As a volunteer Data Scientist at, I developed a machine learning model to identify and locate stray animals, enabling targeted delivery of food and medical supplies. By analyzing data from community reports and geographic patterns, I created an efficient system to prioritize aid distribution, improving the welfare of stray animals. Collaborating with the organization's team, I implemented data-driven solutions that optimized resource allocation and enhanced the impact of rescue and care initiatives.

Skills: Volunteer Engagement · Machine Learning · Community Service

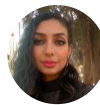

Junior Machine learning engineer

Bank Saderat Iran · Internship

Aug 2015 - Nov 2016 · 1 yr 4 mos

Junior Machine Learning Engineer Intern , assisted in the development and deployment of machine learning models to solve real-world problems. Proficient in Python and frameworks like TensorFlow and PyTorch, I contribute to data preprocessing, model training, and performance evaluation. Played a key role in a fraud detection project, collecting and analyzing data to enhance model accuracy and support robust AI-driven solutions. Collaborating with senior engineers, I support innovative AI solutions while gaining hands-on experience in end-to-end ML pipelines.
