How AI is Revolutionizing Logistics  
Hey everyone, I'm fascinated by how AI is transforming logistics, so I wanted to share a few real-world examples of its impact.  
AI is making routes smarter. UPS's ORION system optimizes delivery paths in real time, saving millions of gallons of fuel and cutting tens of millions of miles yearly. It's efficient and eco-friendly.  
Inventory management is another win. Amazon's AI predicts demand, stocking warehouses strategically to speed up deliveries and avoid overstocking, especially during peak seasons.  
Last-mile delivery is getting a boost too. Starship Technologies' AI-powered robots deliver packages in cities like Milton Keynes, UK, cutting costs ...more

Machine Learning is Revolutionizing Logistics  
Combating Fraud & Money Laundering  
Being a tech enthusiast, I've been excited to witness the change that AI is making in the war against money laundering. The banking sector is fighting back, with AI predicted to reach \$10.5T by 2025. Money laundering is valued at ~\$1.5T annually, now using ML to remove criminals. Here's how ML works:  
As opposed to fixed rules, ML examines huge amounts of data, learns from past histories, customer activities, and identifies anomalies and fraud patterns. ...more
